

A combination of Science and Sailing - an explosive mixture

Prepared by: Katarzyna Schaefer
Boomerang group Coordinator

Boomerang group

Project titled „From sea exploration to conservation – searching for treasures within Gdańsk harbour”

1.08.2014 – 30.04.2014

Program
Młodzież
w działaniu

mosir
GDAŃSK

The project in numbers

- ❑ 2 stages;
- ❑ 1st stage: 5 days of scientific workshops and short sailing cruises;
- ❑ 2nd stage: 7 days of scientific workshops in smaller towns in Pomerania region;
- ❑ 9 gymnasiums;
- ❑ overall more than 300 young people aged between 14-15 years old;
- ❑ Patronages of 4 towns involved within the project including Gdańsk.

Our resources/ possibilities to cooperate

Experience and needs (EU projects)

- ❑ challenge in case of logistics;
- ❑ changing the risks into chances;
- ❑ building network of contacts with schools before the start of the project;
- ❑ Project Management area (Project Management Institute Gdańsk Branch)

Activities we are interested in

- ❑ scientific adventure combined with sports activity (sailing cruises);
- ❑ supporting young people in choice of their career path, writing CV and Cover letter, recruitment process;
- ❑ developing soft skills (communication, time management, presentation skills);
- ❑ improving language skills.

Thank you

- Henry Ford -
